

WESTIE RESCUE

Mia Michelle was adopted since our last report as has 12 year old Jake. Last month we introduced Zoey, George and Toofer. We are happy that all three are now in new homes. Since then we have had new dogs arrive.

Zoey is 3 years old. She came in because her mom had cancer and was far enough along that she could no longer properly care for Zoey. Zoey did very well in foster care and has already gone to her forever home.

George, age 3, arrived in foster care because he was having problems with the toddler in the home. While in foster care there were other issues that were worked on which caused his stay to be longer than usual. However, he has now been adopted and is adjusting to his new family.

Macie is a ten year old female. Her owner passed away so she came into care. She had some medical issues to be dealt with but then we began to look for a new home for her. She is scheduled to meet her new family and we hope she will be adopted by the time we issue this newsletter.

Daisy came in recently. She is 5 years old. She was left tied out to her owner's picnic table with no food, water or shelter. A neighbor realized what was happening and took care of her as best she could until she was finally able to get the owner to surrender her. She took Daisy to a rescue who then transferred her to us.

Daisy is a sweet little girl who is so grateful to be indoors with food and water. She has now been spayed and a nasty ear infection has been treated. She will remain in care for a while longer but should have no problem finding a home.

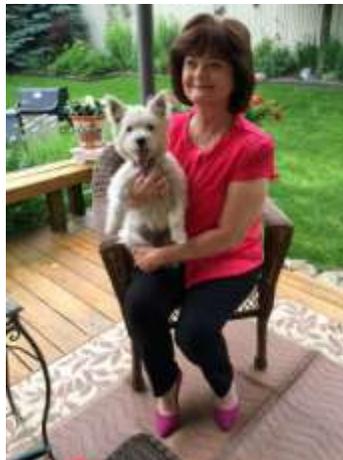

Bubba and Delilah came back into foster care through no fault of their own. Their owner became ill and could not care for them. We are looking for homes for this pair of littermates, aged 3 years. We want to keep them together. They are also looking to meet their potential adopters and we hope they will be adopted by the time this newsletter is issued.

Baby Bella came into foster care at about 12 weeks of age. She was purchased from a pet store in Illinois. After she came home, the wife who has MS, had a relapse and husband could not care for his wife and the puppy during this health crisis. They decided to surrender her.

She has recently been spayed and two extra toes were removed at that time. When she recovers she will find her new home.

Another happy adopter – Kathy Johnson and Betsy

We recently fostered a little girl from a puppy mill situation. She was a bundle of built-up energy and as mischievous as a pup (under 1 year) can be. Fortunately we found the perfect home for her and her new family recently sent a photo of her when she climbed their backyard tree!

You don't believe Poppy actually climbed the tree?

Maybe this will convince you!!!!
